

Respected Sir/ Madam,

Vedhik, India's largest online IAS Coaching Academy has become the pivotal name in learning and education in the new normal era. Vedhik's first of its kind unique learning model is widely acclaimed for successfully catering to the learning habits of twenty- first century students, with an emphasis on IAS aspirants. Unmatched faculty lineup, versatile curriculum, unique teaching pedagogy, perfect leverage of technology; there are numerous factors which make this model highly effective and sought after.

As the learning model put forward by us is getting recognized and growing day by day, Vedhik is looking forward to taking this successful model to the schools in a holistic manner. We would like to welcome schools as our Learning centres for facilitating civil service coaching along with regular school education. The idea is to equip the schools to support the students in exploring their potential to transform their lives. Approved Vedhik learning centres will be privileged to use the logo, name and title of Vedhik IAS Academy in their website, brochure, name board and other promotional materials. They can use the title "APPROVED LEARNING CENTRE OF VEDHIK IAS ACADEMY".

Vedhik Learning centres provide students with much versatile and effective training integrated with unique value additions such as aptitude tests, career counselling, higher education scholarship guidance program, guidance to study abroad, e-language lab, online group discussion forums etc. Vedhik resource team consists of some of the best minds of the country, including distinguished IAS, IPS officers, educationists and technocrats. With innumerable quality services to our Learning centres, Vedhik management can massively uplift the stature of schools to commendably superior level.

Vedhik Learning centre association will also add a lot of value to both schools as well as students. The association can upgrade the schools to a hybrid education system which can improve the flexibility and customization of classes. Our peak learning & group discussion sessions can develop excellent communication skills for students. Psychometric aptitude tests will be conducted and the results will be shared with the school to understand the abilities and potential of each and every student.

We at Vedhik believe that great challenges come along with great opportunities. The world today is moving forward bravely addressing the challenges of covid-19 pandemic. Technology, learning and adaptation have become integral parts of the new normal life. In a mission to empower the student community to address the challenges of present day learning, Vedhik is looking forward to joining hands with your esteemed institution.

Meanwhile, should you require further information please contact **us 24x7**.

Dr. Babu Sebastian

Chancellor
